CURATION NOTES

- Downtown possesses a characteristic of micro-cement that is rapid cured. The micro-fractures and mica-flecks are typical of this material and provide the organic characteristics the material is prized for.
- The Gleam decor features a structured glossy ink effect in linear striations. The stripes are random in scale and placement for a subtle tapestry effect.
- Produced in high-density porcelain, this collection can transition from wall to floor and even be used in exteriors.

PAIRING NOTES

WORKTOPS

Hyper Silver
64" x 127"

Nordik Wood Gold

FLOORING

Axis Collection
8" x 48"

Carnaby Collection
Multiple Sizes

*Both Carnaby Collection & Atmosphere (2-CM-E paver) feature a similar palette and micro-cement look.

Number of faces and unique coverage is the same in both formats.

The small format and variability of orientation conspires to create much more than the 4 sq.ft of unique graphics
